CORSEN AI Academy

ChatGPT Multimodal: Vision, Voice, and Images

Course syllabus

Version 2026-11

Overview

Explore ChatGPT's multimodal capabilities, updated as of November 2026: image analysis, ChatGPT Images 2.6, ChatGPT Voice with Live, and analysis of documents, spreadsheets, and recordings.

Learning objectives

- Analyze an image, graph, or table submitted to ChatGPT to extract useful data
- Extract text from a photo or scanned document via OCR, then reformat it
- Generate an image with ChatGPT Images by controlling style, composition, and format
- Edit an existing image to produce a usable logo, illustration, or mockup
- Leverage ChatGPT Voice and the analysis of PDF, Word, or Excel in a combined workflow

Audience and prerequisites

Anyone wishing to discover and use ChatGPT, without technical prerequisites.

Prior practice with generative AI is recommended.

Duration and format

Estimated duration : 2 h. 100% online self-paced course, accessible 24/7 from a browser. Progress saved, resume anytime. Estimated duration: 2 h.

Content

- Vision and Image Analysis (4 lessons)
- Image Generation (4 lessons)
- Voice (3 lessons)
- Documents and Files (3 lessons)

Assessment

Practice exercises offered throughout the lessons. Each lesson ends with its Key takeaways, supporting self-assessment. A final quiz of 5 corrected questions, at the end of the last lesson, validates acquired skills.

Accessibility

Self-paced course accessible to people with disabilities: text content compatible with screen readers, keyboard navigation, and compliant contrasts. For any adaptation needs, email hello@corsen.ai.

Price and recognition

Free

Certificate of completion issued by Corsen AI.

Access time

Immediate after account creation and email confirmation.
