CORSEN AI Academy

Custom GPTs, Plugins and Skills

Course syllabus

Version 2026-11

Overview

Customize ChatGPT, understand and maintain your GPTs (instructions, knowledge base, API actions), then migrate them to plugins and skills before their retirement on December 11, 2026.

Learning objectives

- Configure custom instructions and ChatGPT memory to reflect a specific business context
- Create a complete GPT with the GPT Builder: system instructions, knowledge base and test cycle
- Connect a GPT to an external API (CRM, calendar, database) using Actions
- Secure a GPT's Actions by choosing the authentication mode adapted to the exposed data
- Evaluate GPTs and plugins, know publication rules and choose an outlet for expertise after GPT retirement
- Transpose an existing GPT into a plugin and a skill, identifying what must be rebuilt

Audience and prerequisites

Anyone wishing to discover and use ChatGPT, without technical prerequisites.

Initial practice with generative AI is recommended.

Duration and format

Estimated duration : 2 h. 100% online self-paced course, accessible 24/7 from a browser. Progress saved, resume anytime. Estimated duration: 2 h.

Content

- Customize ChatGPT (3 lessons)
- Create a GPT (5 lessons)
- Actions and external APIs (3 lessons)
- The GPT Store ecosystem (3 lessons)
- From GPTs to plugins (3 lessons)

Assessment

Application exercises proposed throughout the lessons. Each lesson ends with its Key takeaways, supporting self-assessment. A final quiz of 5 corrected questions, at the end of the last lesson, validates acquired skills.

Accessibility

Course accessible to people with disabilities: text content compatible with screen readers, keyboard navigation and compliant contrasts. For any adaptation needs, email hello@corsen.ai.

Price and recognition

Free

Certificate of completion issued by Corsen AI.

Access time

Immediate after account creation and email confirmation.
