Deep Research and Web Search

Course syllabus

Version 2026-11

Overview

Leverage web search and Deep Research for in-depth analysis, fact-checking, and monitoring.

Learning objectives

- Query the web from ChatGPT while systematically verifying sources and citations obtained
- Launch a Deep Research and leverage the produced report for competitive monitoring or market study
- Cross-reference multiple sources to confirm or refute information before sharing it
- Identify biases in search results and spot signals of scams or phishing
- Structure a reproducible professional research workflow, from the initial question to the deliverable

Audience and prerequisites

Anyone wishing to discover and use ChatGPT, with no technical prerequisites.

Prior practice with generative AI is recommended.

Duration and format

Estimated duration : 1 h 30 min. Self-paced course 100% online, accessible 24/7 from a browser. Progress is saved, resume anytime. Estimated duration: 1 h 30 min.

Content

- Web search in ChatGPT (4 lessons)
- Deep Research (4 lessons)
- Critical analysis (4 lessons)

Assessment

Practice exercises offered throughout the lessons. Each lesson ends with its Key takeaways, supporting self-assessment. A final quiz of 5 corrected questions, at the end of the last lesson, validates acquired skills and earns a certificate of completion.

Accessibility

Self-paced course accessible to people with disabilities: text content compatible with screen readers, keyboard navigation, and compliant contrasts. For any adaptation needs, email hello@corsen.ai.

Price and recognition

Free

Certificate of completion issued by Corsen AI.

Access time

Immediate after account creation and email confirmation.
