CORSEN AI Academy

Grok for Large Enterprises

Course syllabus

Version 2026-11

Overview

Covers xAI Enterprise plans, provisioned throughput, 99.9% SLA, governance, France/Europe data residency, and concrete use cases.

Learning objectives

- Compare xAI Enterprise offerings to standard tiers to frame a contract and its DPA
- Size dedicated capacity in provisioned throughput units and TPM allocations per model
- Estimate the annual cost of a deployment and manage overages via API headers
- Structure governance: SAML SSO, multi-factor authentication, team roles, and audit logs
- Document the France/Europe data residency expected by a compliance department

Audience and prerequisites

Non-technical professionals—executives, managers, marketing, HR, legal—looking to integrate Grok into their daily work.

Prior experience with generative AI is recommended.

Duration and format

Estimated duration : 1 h 45 min. 100% online self-paced course, accessible 24/7 from a browser. Progress is saved, resume anytime. Estimated duration: 1 h 45 min.

Content

- Enterprise xAI (4 lessons)
- Provisioned Throughput (4 lessons)
- Governance (4 lessons)
- Use Cases (2 lessons)

Assessment

Application exercises provided throughout the lessons. Each lesson ends with Key takeaways to support self-assessment. A final quiz of 5 corrected questions at the end of the last lesson validates learning.

Accessibility

Self-paced course accessible to individuals with disabilities: text content compatible with screen readers, keyboard navigation, and compliant contrasts. For any accommodation needs, email hello@corsen.ai.

Price and recognition

Free

Certificate of completion issued by Corsen AI.

Access time

Immediate after account creation and email confirmation.
