xAI Security & Compliance

Course syllabus

Version 2026-11

Overview

Enterprise security covering SOC 2 Type II, HIPAA, GDPR, SAML SSO, ephemeral tokens, and advanced moderation.

Learning objectives

- Place SOC 2 Type II, HIPAA, and GDPR commitments within a compliance dossier
- Implement ephemeral tokens to secure client-side WebSocket connections
- Apply least privilege to ACLs and organize the API key lifecycle
- Configure store:false and regional data residency to process sensitive information
- Audit a production deployment via console logs and a security checklist

Audience and prerequisites

Developers, engineers, and integrators looking to leverage Grok via API in their applications.

Proven experience in application development and deployment to production.

Duration and format

Estimated duration : 1 h 45 min. 100% online self-paced course, accessible 24/7 from a browser. Progress is saved, resume anytime. Estimated duration: 1 h 45 min.

Content

- Compliance (4 lessons)
- API Security (4 lessons)
- Best Practices (4 lessons)

Assessment

Application exercises provided throughout the lessons. Each lesson ends with key takeaways to support self-assessment. A final quiz of 5 corrected questions at the end of the last lesson validates acquired skills.

Accessibility

Self-paced course accessible to people with disabilities: text content compatible with screen readers, keyboard navigation, and compliant contrasts. For any adaptation needs, email hello@corsen.ai.

Price and recognition

Free

Certificate of completion issued by Corsen AI.

Access time

Immediate after account creation and email confirmation.
