Mastering ChatGPT Prompts

Course syllabus

Version 2026-11

Overview

Prompting techniques from beginner to expert based on OpenAI documentation, covering goal, context, output, limits, roles, few-shot, reasoning, templates, meta-prompting, and workflows.

Learning objectives

- Write a complete prompt specifying the goal, context, output and limits
- Apply roles and few-shot, and adjust the reasoning level rather than imposing chain-of-thought
- Build a library of reusable prompt templates for your recurring tasks
- Break down a complex task into chained, conditional or meta-prompting generated prompts
- Identify the most common prompting errors and correct a prompt with disappointing results
